PROFESSIONAL SUMMARY

Backend-focused software engineer with 5+ years delivering enterprise systems across fintech and agritech. Strong in API design, SDLC execution, and cloud delivery with measurable impact. Built and shipped production platforms that automated 10,000+ farm records and improved operational reliability through CI/CD and containerization. Ready to contribute to Entelect's Java delivery teams with fast ramp-up and strong customer-facing execution.

CORE COMPETENCIES

Java Software Engineering

Spring / Spring Boot

Backend APIs

SDLC Delivery

CI/CD

Containerization

Cloud (AWS/Azure)

Relational Databases

WORK EXPERIENCE

Freelance Developer Feb 2025 - Present

Backend / Product Engineer

- Built **BulkTogether**, a group buying platform with secure escrow and production backend workflows.
- Engineered a **SOC 2-compliant** document management system with semantic search and role-based access control.

Solidaridad Network Jan 2023 - Feb 2025

Software Developer

- Led backend development of a Django/PostgreSQL platform automating classification of **10,000+ farms**.
- Designed modular APIs and performance dashboards to reduce manual reporting overhead.
- Managed AWS infrastructure and CI/CD automation to improve deployment reliability.

YoHoldings Pvt Ltd Sep 2019 - Dec 2020

Software Developer

- Delivered ERP and accounting systems end-to-end across frontend and backend layers.
- Implemented secure payment processing integrations using ISO 8583 and Postilion.

PROJECTS

Farm Clustering & Management System

Automated geo-tagged farm classification at scale with real-time operational dashboards.

BulkTogether Group Buying Platform

Built secure group-buying flows with escrow, matching, and backend transaction orchestration.

Bank POS Integration

Integrated payment flows using ISO 8583 and Postilion in production banking context.

EDUCATION

BSc (Hons) Computer Science [National University of Science and Technology](#) 2015 - 2019

CERTIFICATIONS

Exploratory Data Analysis for Machine Learning [Coursera](#) 2024

SKILLS

Languages: C#, Python, PHP, Java (working familiarity) **Frameworks:** Django, ASP.NET Core, Laravel, Flask, Spring (learning/adjacent)

Databases: PostgreSQL, MySQL, MS SQL Server **Cloud/DevOps:** AWS, Docker, CI/CD, GitHub Actions, Jenkins

APIs: REST integrations, enterprise systems
